

ViewPoint Mobile Solutions

Making Customer Feedback Easy

Mobile interviewing has never been easier. Now with ViewPoint from CRT™ you can capture feedback instantly by using a PDA or a Tablet PC anywhere.

CRT's ViewPoint software sits on the Windows mobile platform. Users have complete flexibility to set up any questions and they can produce comprehensive reports in minutes via our online ViewPoint Research Control Suite.

ViewPoint Tablet 7"

Ideal for collecting feedback where a larger screen is required but mobile flexibility is essential.

ViewPoint PDA 3.5"

Designed for capturing feedback on behalf of the individual, where ultimate pocket-sized portability is required.

Features	Tablet 7"	PDA 3.5"
Multiple Choice	YES	YES
Multiple Answers	YES	YES
Routing	YES	YES
Open Ended	YES	YES
Alpha Numeric Answers	YES	YES
Numeric Answers	YES	YES
Tabular Format Questions	YES	NO
Multi Language	YES	NO
Optional 3G / GPRS	YES	YES
Standard Reporting	YES	YES
Customised Auto Reporting	YES	YES

Our battery operated solutions are ideal to be used where mains power is not available or where static touch screen systems are inappropriate. For example, community police work, patient surveys, mystery shopping, home visits, outdoor parks and leisure venues, exhibitions, etc. In fact, anywhere that your face-to-face interviewers currently gather feedback.

“Leicestershire Constabulary have found CRT's ViewPoint technology a useful tool in collecting the views of the public... The technology is easy to use and we have always found the support from CRT to be friendly and efficient.”

Stuart Fraser, Service Improvement Leicestershire Constabulary
